PREFACE

With this issue, the Directory enters the seventh year of its publication, covering the academic session 1960-61. It gives information about the courses of study available in the colleges and describes the type, jurisdiction, departments of studies and academic terms of the universities together with the medium of examination used in each. It also provides information about colleges affiliated to Boards of Intermediate Education as well as non-affiliated educational and/or research institutions.

In view of the great demand for professional and technological education, this Directory gives special attention to institutions providing such education. These institutions have been classified according to subjects and the minimum admission requirements for and the duration of the first degree courses in each subject have been indicated. General information about the total intake, reservation of seats for backward classes and for different States, the fees charged, the last date for submitting applications for admission and the date of the commencement of the session, etc., in Engineering, Technology, Medical and Pharmacy courses has been revised and brought up-to-date for the session 1961-62.

It is gratifying to learn that the previous editions have been well received by students and others in this country and abroad. Our thanks are due to the Universities, the State Governments and other institutions which have been good enough to supply the information.

MAY 1, 1961.

PUBLICATION No. 684

**PRINTED IN INDIA BY THE MANAGER, GOVERNMENT OF INDIA PRESS,
FARIDABAD AND PUBLISHED BY THE MANAGER OF PUBLICATIONS, DELHI, 1963.**

PREFACE

This biennial publication, whose earlier issue was published in 1961, gives information about the courses of study available in universities, institutions of national importance, colleges and other institutions of higher education in India as on 1st January, 1963. It also gives information about the type, jurisdiction, departments of studies, academic terms and the medium of examination in each University.

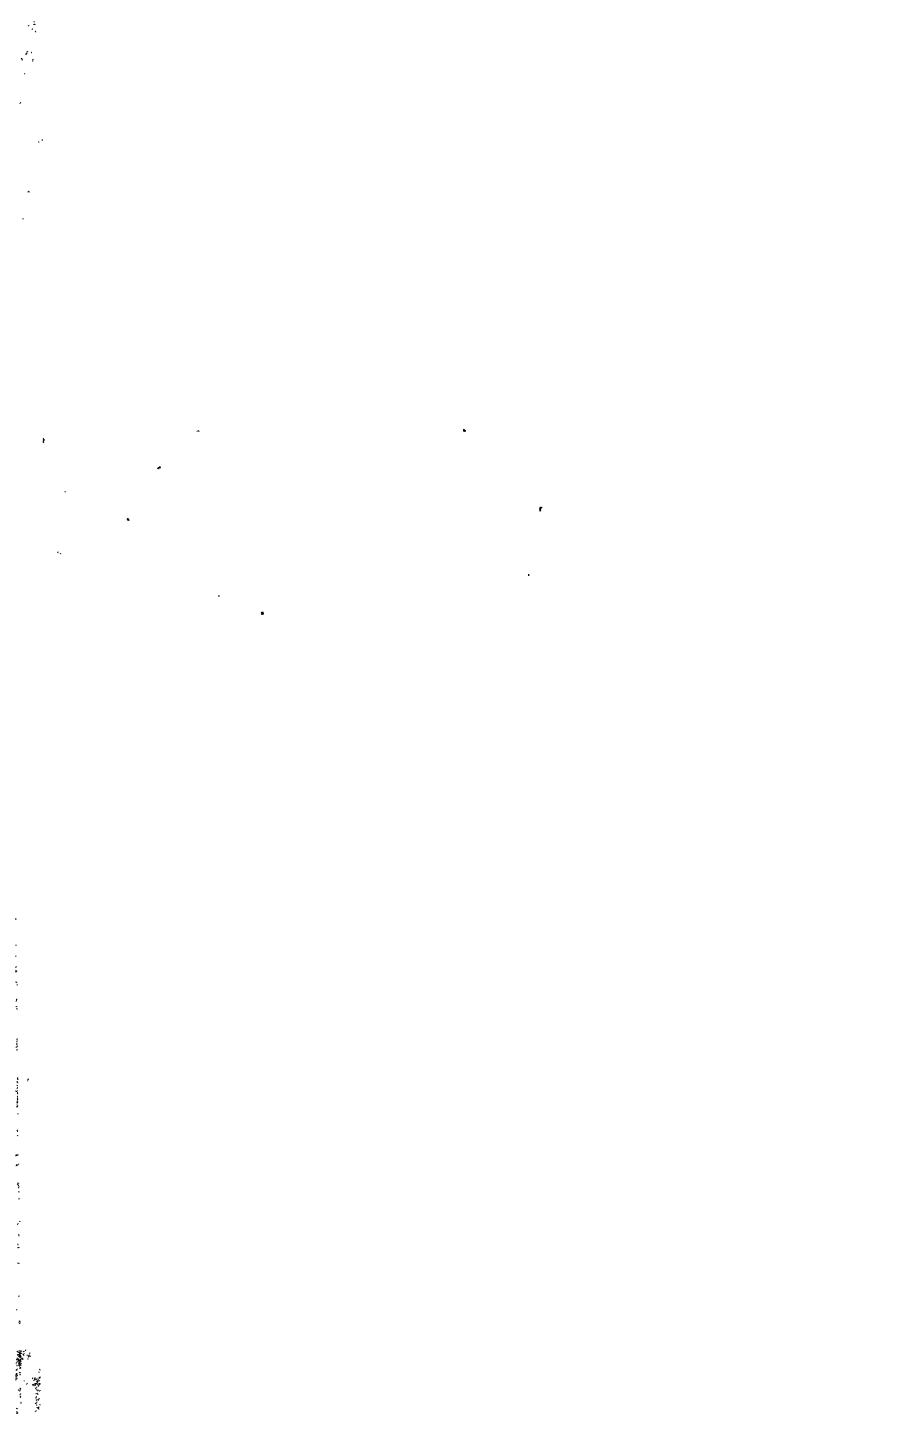

In view of the great demand for medical and technological education, an attempt has been made to provide general information usually required by candidates seeking admission to colleges providing these courses, e.g., total intake capacity, reservation of seats for backward classes and for different States, fees charged, last date for submitting applications for admission and date of the commencement of session, etc. for the academic year 1963-64. Moreover, the minimum admission requirements for and the duration of the first degree courses in various professional subjects have also been indicated.

The Ministry is happy to learn that the earlier editions of this Directory have been very well received by students and parents in this country and abroad. It is hoped that they will find this volume equally useful.

Our thanks are due to the Universities, State Governments and the institutions listed herein but for whose cooperation this Directory would not have been possible.
